SPECIAL OFFERING, NO. 88

IN presenting this Special Offering of Orchid Plants we have endeavored to list some of the more beautiful, uncommon and rarities in Orchids that should please as well as prove ideal for anyone interested in a miscellaneous collection of Orchids. Many of these plants are from a private collection which we were fortunate to obtain.

The plants listed herein are all of flowering size and of easy culture. There is no reason why you cannot be entirely successful in growing them and obtaining a great deal of pleasure in doing so.

We have briefly described the majority of those listed herein and will gladly, upon request, send what more detailed information we have relative to habits, culture, etc.

For other species and varieties of Orchids as well as Orchid culture materials, such as Orchid Peat, Live Sphagnum Moss, Orchid Baskets, Books, Pothangers, etc., see our Special List, No. 82.

In ordering please specify LIST NUMBER and PLANT NUMBER.

Trusting that we may have the pleasure of serving you.

LAGER & HURRELL.

Nos.		Price
	ACAMPE: (Name meaning inflexible) Vanda like habits and requiring similar culture.	
1,	" PAPILLOSA; (India) Summer, Strong plants, 12 leaves	7.50
	ACROPERA: Easily grown, free flowering, curious, almost fantastic structure of blossoms on spikes.	
2,	" LODDIGESI; (Mexico) Summer, Good plants, 3-4 bulbs	5.00
	ADA: Allied to Odontoglossum, remarkable for the beautiful cinnabar-orange of its flowers set closely on spikes.	
3,	" AURANTIACA: (Colombia) Winter and Spring, 3-4 bulbs	5.00
	AERIDES: Handsome, of easy culture. Good sized flowers borne on pendant racemes, strongly scented.	
4,	" EXPANSUM; (Burma) Summer, strong plants, 12 leaves	10.00
5,	" ODORATUM; (India) Summer, strong plants 10 leaves	7.50
6,	" ODORATUM; (Specimen) One plant only, 8" pot, 30" high	35.00
7,	" VIRENS; (Java) Early Summer, 10 leaves, 13" high	15.00
	ANGRAECUM: Star shaped flowers having peculiar spur, easy culture. Should have a place in every collection.	
8,	" DISTICHUM; (W. Africa), Autumn, small flowers, fine plants, 6-8 stems	7.50
9,	" EBURNEUM; (Madagascar) Winter, large flowers, splendid plant, 8 leaves	25.00
10,	" EICHLERIANUM; (W. Africa) Winter, fine plants, 15-18 leaves, 1 stem	10.00
11,	" EICHLERIANUM; (Specimen) Splendid plant, 4 stems over 30" high	20.00
12,	" EICHLERIANUM; (Extra fine specimen) 8" pot, many stems, 4-5 feet high	25.00
13,	" SESQUIPEDALE; (Madagascar) Early Spring, Flowers large, 5-7 inches across, grand plant, 10 leaves 12" high	25.00
14,	" SESQUIPEDALE; (Specimen) One plant, 16 leaves, 20" high	50.00
	ARACHNANTHE: Allied to Vanda and Aerides having same culture, worth cultivating because of the size, curious structure and remarkable coloring of flowers.	
15,	" SPECIES; Summer and Autumn, fine plant, 24 leaves, 18" high	15.00
	BIFRENARIA: Allied to Maxillaria, requiring similar culture. Large flowered, of easy culture.	
16,	" HARRISONIAE; (Brazil) Spring, good plant, 4 bulbs	5.00
	BRASSAVOLA: The following "Digbyana" is the outstanding species from which the hybridist has produced the Brasso-cattleya, Brassolaeliocattleya, etc.	
17,	" DIGBYANA; (Honduras) Summer, lip heavily fringed, strong plants, 5 bulbs	15.00
	BRASSIA: Of easy culture, they make an interesting group because of the spider-like form of the large flowers.	
18,	" ANTHEROTES; (Tropical America) Flowers 6-12 on spike, about 6" in diameter, 3-4 bulbs	7.50
19,	" BRACHIATA; (Panama) Summer, strong plants, 4 bulbs	7.50
20,	" BRACHIATA; (Extra strong plant), 4 bulbs	10.00
21,	" VERRUCOSA; (Mexico) Summer, fine strong plant, 5 bulbs	5.00
	BULBOPHYLLUM: A very interesting genus, easily grown in warm, moist heat, and should never be allowed to become quite dry.	
22,	" CAREYANUM; (Himalaya) Summer, flowers small, good plants, 6-8 bulbs	5.00
23,	" CAREYANUM; (Fine strong plant) 12-20 bulbs	10.00
24,	" DEAREI; (New Guinea) Summer, flowers 2-3", 4 strong bulbs	10.00
25,	" GRANDIFLORUM; (New Guinea) Autumn, splendid plant, 5-6 bulbs	7.50

Nos.		Price
26,	" LOBBI; (Malaya) Summer, flowers 2-4", fine plant, 5-6 bulbs -----	7.50
27,	" LOBBI; (Larger plants, fine, strong) -----	10.00
28,	" ODORATISSIMUM; large plants, 12 bulbs -----	5.00
	CALANTHE: Terrestrials, easy culture, long many flowered spikes. A few of these should be in every collection.	
29,	" JOBSTOWN; (Pure white) Winter, 2 Bulbs, showing spike -----	7.50
30,	" Mc WILLIAMSI; (Winter) 2 bulbs, showing spike -----	7.50
31,	" VANDERBILT; (BRYAN) Winter. 2 bulbs showing spike -----	7.50
32,	" VEITCHI; (Winter) 2 bulbs showing flower spike -----	5.00
33,	" WM. MURRAY; (Winter) 2 bulbs showing flower spike -----	7.50
	CAMAROTIS: Botanically interesting, easy grower, free flowering qualities.	
34,	" HARTMANNI; (Queensland) Spring, good plants, 1 stem -----	5.00
	CATASETUM: A curious and interesting genus, well worth attention.	
35,	" MACROCARPUM; (Tropical America) Summer, 3 good bulbs -----	7.50
	CATTLEYA: Among the most popular, useful and showy of all Orchids, of easy culture, with beautiful large flowers.	
36,	" BOWRINGIANA, (Honduras) Fall, Spikes 5-20 flowered. Strong plants, 6-8 bulbs in 6 inch pots -----	15.00

72,	" ACME; Good strong plants, with 3-4 growths -----	7.50
73,	" A. DIMMOCK; Splendid plants with 6-8 growths -----	10.00
74,	" BESSIE K. PITCHER; Fine plants with 3-4 growths -----	5.00
75,	" INSIGNE; Strong plants with 4-5 growths -----	3.50
76,	" INSIGNE HAREFIELD HALL; Specimens in 6" pots. Strong -----	25.00
77,	" INSIGNE HURRELLIANUM; Good plants with 3-4 growths -----	5.00
78,	" INSIGNE HURRELLIANUM; Splendid plants with 5-6 growths -----	7.50
79,	" INSIGNE SANDERAE; Good plants with 3 growths -----	5.00
80,	" INSIGNE SANDERAE; Fine plants with 5 growths -----	7.50
81,	" INSIGNE SANDERAE; Fine specimen plants in 6" pots -----	25.00
82,	" INGENS; Specimen plant with 8 growths -----	15.00
83,	" LEEANUM; Good plants with 3-4 growths -----	5.00
84,	" LEEANUM; Fine plants with 5-6 growths -----	7.50
85,	" LEEANUM; Splendid plants with 7-8 growths -----	10.00
86,	" PAVONINUM INVERSUM; Fine plants with 3 growths -----	5.00
87,	" PAVONINUM INVERSUM; Fine strong plants, 4-5 growths -----	7.50
88,	" VIRIDISSIMA BLENHEMENSIS; Extra strong 9-10 growths -----	15.00—20.00
89,	" WM. MCKINLEY; Good plants, with 1-2 growths -----	5.00
	CYRTOPODIUM: Handsome Orchids, large growing.	
90,	" PUNCTATUM; (South America) Spring. Spikes 3-2 feet, often 100 flowers, yellow marked with browns and reds. Fine strong plants with 5 bulbs -----	12.50

Nos.		Price
91,	" PUNCTATUM; Splendid plants with 8 strong bulbs DENDROBIUM: A large, varied and popular genus, majority extremely floriferous and of easy culture. Dendrobiums should have a place in every collection.	15.00
92,	" AMPLUM; (Rare) Good plants, 4 bulbs	7.50
93,	" CALCEOLUS; (India) Summer, yellow with orange colored spots. Fine plants, 4-6 bulbs, 30-36" high	5.00
94,	" CHRYSOTOXUM; (Moulmein) Spring, Spikes 7-15 flowered. Golden yellow, orange disc, F. P. 5-6 bulbs	7.50
95,	" THYRSIFLORUM; (Burma) Spring, Many flowered, sepals and petals white, pink flushed, lip golden orange, fine plants, 8 bulbs	12.50
96,	" COLLECTION OF SPECIES AND VARIETIES; Strong plants in 4 and 4½" pans,, per dozen	60.00
98,	" COLLECTION OF SPECIES AND VARIETIES; Small, good plants in 3 and 3½" pans, per dozen	25.00
	ELLEANTHUS: Interesting small group of Orchids. Few are met with in cultivation.	
100,	" LONGIBRACTEATUS; Only one plant available, 5 stems, 4" pan	10.00
	EPIDENDRUM: Very attractive free and easy growers, with a close relationship to Cattleyas, Laelias, etc.	
101,	" BRASSAVOLAE; (Guatemala) Spring, Scapes 10-20 flowered, yellow, lip with purple, scented. Good plants, 4-5 bulbs	5.00
102,	" CILIARE; (Tropical America) Winter. Erect scapes, 2-7 flowered, greenish white, lip pure white. Fine plant, 5 bulbs	7.50
103,	" COCHLEATUM; (Tropical America) Various, Erect spikes, 5-10 flowers, yellowish green, lip deep purple-black. Fine plant, 5 bulbs	5.00
104,	" NOCTURNUM; (West Indies) Spring. Spikes terminal 6-12 flowered, greenish white, lip white. Good plants, 4 stems	5.00
105,	" O'BRYANIANUM; (Hybrid) Good plant, 1-2 stems	5.00
106,	" PALLEACEUM; One fine plant, 10 bulbs	7.50
	ERIA: Interesting, attractive small flowered genus, worth attention from the Orchid lover.	
107,	" CONVALLARIOIDES; (Burma) Summer. Inflorescences 3-6 inches, flowers small, densely set, white. One plant only	7.50
	GOMEZA: Allied to Odontoglossums and Miltonias, and resembling Oncidiums in general appearance.	
108,	" PLANIFOLIA; (Brazil) Spring. Light greenish yellow, very fragrant. Fine plant, 3-4 bulbs	5.00
	GONGORA: Easily grown, free flowering and worth attention.	
109,	" ATROPURPUREA; (British Guiana), Various, scapes drooping, many flowered, dark purplish brown, darker spotting. Good plant, 3 bulbs	10.00
	LAELIA: Closely allied to the Cattleya, rich colorings, very showy.	
110,	" ACUMINATA; (Guatemala) Fall and Winter, 4-8 flowered, white or flushed with rose, dark maroon spot on lip. Good plant, 5-6 bulbs	5.00
111,	" ACUMINATA; Fine plants, 7-8 bulbs	7.50
112,	" ACUMINATA; Splendid plants, 10-12 bulbs	10.00
113,	" AMOENA; Fine plant, 7-8 bulbs	10.00
114,	" ANCEPS ALBA; (Mexico) Dec.-Jan. Pure white. Good plants, 4-5 bulbs	7.50
115,	" ANCEPS ALBA; Fine plants, 6-8 bulbs	12.50
116,	" ANCEPS SANDERIANA; (Mexico) Winter. Pure white, rose purple blotch on lip, 6 bulbs	10.00
117,	" CRISPA; (Brazil) Summer. Large white flowers, lip purple. Good plant, 4-5 bulbs	10.00
118,	" GOULDIANA; (Mexico) Flowers for Christmas, 5-6 bulbs	10.00
119,	" PURPURATA; (Brazil) Spring. Large growing, large flowering, 3-9 scapes, rose white, yellow throat in lip, striped with crimson, 4-5 fine bulbs	10.00
	LAELIOCATTLEYA: Hybrids between Laelias and Cattleyas, indispensable in collections.	

Nos.		Price
120,	" BERTHE FOURNIER; (L. Elegans × C. Dowiana). A beautiful flowering hybrid. 4-5 bulbs -----	15.00
121,	" BERTHE FOURNIER; Smaller unflowered plants in 3-3½" pots, with 4-5 bulbs -----	5.00
122,	" VELMA WOOLWORTH; (Lc. Vesuvius × C. Gigas). A fine new hybrid of our own raising. Good plants, 5 bulbs, 4½" pots -----	20.00
123,	" WRIGLEYI; (C. Bowringiana × L. Anceps). Fine flowering plant in 4 bulbs -----	10.00
	LYCASTE: Terrestrials, handsome and distinctly interesting.	
124,	" CRUENTA; (Guatemala) Spring. Many flowered, bright yellow. Good plants, 3-4 bulbs -----	7.50
	MAXILLARIA: Allied to Lycastes and very interesting.	
125,	" PICTA; (Brazil) Winter and various, very fragrant colored flowers, good plants in 4 bulbs -----	7.50
126,	" TENUIFOLIA; (Mexico) Spring. Red marked with yellow. Nice plants in 4½ inch pots -----	5.00
127,	" VARIABILIS; (Mexico) Spring and various. Pur- plish red, good plants with 5 bulbs -----	5.00
	MEGACLINUM: Resembling in habit and allied to Bul- bophyllum; of easy culture and much interest.	
128,	" FALCATUM; (Sierra Leone) Spring. Rachis brownish green, upper segments of flowers, dark, brownish red; lower segments greenish yellow; dwarf, 4 bulbs -----	10.00
129,	" FALCATUM; Larger plants, 8 bulbs -----	15.00
	MILTONIA: (Pansy Orchid). Handsome, large flowered Orchids, allied to Odontoglossums. Very rich color- ings, and in great demand by the Orchid fancier.	
130,	" BLEUANA; (Vexillaria × Roezli). A beautiful hybrid in plants of 2-3 bulbs -----	10.00
131,	" FLAVESCENS; (Brazil) Summer, 6-10 flowered, 3-4 bulbs -----	7.50
132,	" ROEZLI ALBA; Fine beautiful flowered plants, 5-6 bulbs -----	10.00
133,	" ST. ANDRE; (Spring) Beautiful, popular hybrid, 3-4 Bulbs -----	15.00
134,	" STEVENSI; Some fine plants with 3-4 bulbs -----	15.00
135,	" VEXILLARIA; (Colombia) Spring. Good plants 1-2 shoots -----	10.00
136,	" VEXILLARIA; Larger plants -----	15.00
	ODONTOGLOSSUM: The most popular family among the the cool house Orchids, of exquisite beauty, useful- ness and simple, easy culture.	
137,	" CITROSMUM; (Mexico) Early Summer. Pendulous scapes 2-3 feet long, 15-30 flowered. Large round, white or flesh tinted flowers, fragrant, rose lip, yellow, red spotted crest. Good plants, 4-5 bulbs --	5.00
	ODONTONIA: Hybrids between Odontoglossum and Mil- tonia.	
138,	" LAIRESSEAE; A beautiful, popular hybrid, 2-3 bulbs -----	12.50
	ONCIDIUM: A large and varied genus of considerable horticultural value.	
139,	" ALTISSIMUM; (West Indies) Summer. Scapes 2-3 feet high, many flowered, yellows and browns. Good plants, 3-4 bulbs -----	7.50
140,	" FLEXUOSUM; (Brazil) Summer. Scapes 2-3 feet, many flowered, red browns and yellows. Good plants, 3-4 bulbs -----	5.00
141,	" LANCEANUM; (Trinidad) Summer. Large fragrant flowers on scapes, yellow shaded with green, brown, lip rose purple, very beautiful, 3-4 bulbs -----	15.00
142,	" LURIDUM; (West Indies) Summer. Large growing, scapes 3-6 feet long, many flowered. Strong 6-8 leaves -----	12.50
143,	" MICROCHILUM; (Guatemala) Summer. Many flowered, very pretty. Good plants, 4 leaves -----	7.50
144,	" PAPILIO; (Butterfly Orchid) Colombia. Various, large flowers resembling the butterfly, 3-4 bulbs --	10.00
145,	" SPHACELATUM; (Guatemala) Spring. Many flower- ed, beautiful browns and yellows, 3-4 bulbs -----	5.00
146,	" SPLENDIDUM; (Guatemala) Mid-winter. Many large flowers, yellowish greens and browns, lip clear yellow. Fine plants with 4 bulbs -----	10.00

Nos.		Price
147,	" VARICOSUM ROGERSI; (Brazil) Fall. Superior to the type. Many flowered, beautiful yellows and browns, 3-4 strong bulbs-----	12.50
148,	" WENTWORTHIANUM; (Guatemala) Summer. Many flowered, yellows and red browns. Good plants, 3-4 bulbs-----	5.00
	ORNITHIDIUM: Small flowered interesting genus.	
149,	" DENSUM; (Mexico) Various. Greyish white, tinged with purple, many in a fascicle, strong plants in 4½ inch pots-----	5.00
	PHOLIDOTA: (Rattlesnake Orchid). Allied to Coelogyne, of botanical interest.	
150,	" IMBRICATA; (India and Burma) Spring, 5-6 bulbs PLATYCLINIS; A genus well worth growing, with much much admired inflorescence.	7.50
151,	" COBBIANA; (Philippines) Spring. Densely flowered stalks, small, straw yellow, orange yellow lip, 5-6 bulbs-----	5.00
152,	" FILIFORMIS; (Philippines) Spring. (Golden Chain Orchid), small, fragrant, yellow flowers, on many flowered racemes. Good plants, 5-6 bulbs-----	5.00
153,	" GLUMACEA; (Philippines) Spring. Racemes many flowered, yellowish white, scented, 7-8 good bulbs-----	7.50
154,	" LATIFOLIA; (Philippines) Spring. Very interesting, inflorescence nodding, flowers arranged in two rows, creamy white, reddish bract, 5-6 bulbs-----	5.00
155,	" MOELLERI; Good plants, 4-5 bulbs-----	5.00
	PLEUROTHALLIS: Very large genera and well worth including in Orchid collections.	
156,	" SPECIES; Very good plants in 5-inch pots-----	7.50
	RENANTHERA; Allied to Vandas and a wonderful addition to any Orchid collection.	
157,	" COCCINEA; (Burma and Cochín China) Various. Large growing plant, scapes long, branched, many flowered, blood-red spotted with yellow, lip yellow and red. Fine plant, 24 leaves, 5" pot-----	15.00
	SACCOLABIUM: Similar in habit of growth to Vanda, with very interesting and beautiful flowers.	
158,	" PRAEMORSUM; (India to Java) Summer. Pendulous scapes, many flowered, fragrant, white with purple, lip purple. Only one specimen plant available, 8 leaves, 9" basket-----	60.00
159,	" VIOLACEUM; (Philippines) Winter. Scapes pendulous, many flowered, fragrant, white spotted with amethyst-purple, only one very fine specimen plant with 11 leaves, in 8" pan available-----	60.00
160,	" WRIGHTII; Very fine plant with 12 leaves in 7" pan SELENIPEDIUMS: Very distinct in regard to habit of the plants, color and shape of the flowers. Many have long ribbon-like petals, flowers on tall scapes one after another. As one flower drops another takes its place.	30.00
161	" CONCHIFERUM; (Hybrid). Very fine cross, good 3-4 growths-----	5.00
162,	" SEDENI CANDIDULUM; (Hybrid). Good plants, with 2 growths-----	5.00
163,	" SEDENI CANDIDULUM; Fine plants with 3-4 growths-----	7.50
164,	" URGANDAE; Graves Var. (Hybrid) only 1 large plant, 2 growths-----	10.00
165,	" URGANDAE; Graves Var. Specimen plant (only one) 4 growths-----	15.00
166,	" URGANDAE; Graves Var. Only 1 specimen plant with 5 growths-----	20.00
167,	" LABELS LOST; Plants not identified as labels have been lost. All good varieties in strong plants, 1-2 growths-----	5.00
	SCHOMBURGKIA: A very interesting, large growing genus, closely allied to Laelia.	
168,	" TIBICINIS; (Honduras) Early Summer. Scapes 3-5 feet, many flowered, usually reddish or purple brown, lip orange yellow streaked with red-purple. Good plants, 6-7 bulbs-----	7.50
169,	" TIBICINIS; Fine strong plants, 8 bulbs-----	12.50
170,	" TIBICINIS; Specimen plant, 15-16 bulbs-----	20.00

Nos.		Price
171,	" UNDULATA; (Colombia) Spring. Scapes 2-4 feet many flowered, purplish-brown with white, pale rose. Fine plants with 6-7 bulbs-----	10.00
172,	" UNDULATA; A few choice larger plants-----	15.00
	SOERALIA: Terrestrials of easy culture and free flowering qualities. Flowers large and showy resembling Cattleyas. Very fine for collections.	
173,	" MACRANTHA; (Mexico) Spring. Stems 3-8 feet high, flowers large, fragrant, rich crimson-purple, broad lip, whitish, shaded with yellow. Good plants with 4-5 stems-----	7.50
174,	" MACRANTHA ALBA; Fine plants in 4-5 stems-----	10.00
175,	" MACRANTHA ALBA; Fine larger plants-----	15.00
176,	" MACRANTHA (SPECIMEN); Beautiful plant in 18-inch pot-----	25.00
177,	" MACRANTHA, Var. KIENASTIANA. Flowers large, pure snow white. Specimen plant, 12" pot-----	25.00
	SPATHOGLOTTIS: A very interesting genus of terrestrials from the East.	
173,	" AUREA VIEILLARDI; (New Caledonia) Autumn and Various. Whitish or flushed with rose, lip, reddish-brown. Good plant, 1-2 growths-----	7.50
	STANHOPEA: A very remarkable genus, with large, handsome, strongly scented flowers, on pendulous racemes. An important plant for the Orchid collection.
